**Subject:** Re: Dimock - Ft. Meade VOC and Anions

Suddha,  
Thanks for the shipment info.

We were able to get one cooler out by UPS with DI water today. You may see a cooler tomorrow. The only parameters I know affected by field blanks are VOC and SVOC. The water that Kevin put in the cooler was from the extraction lab and was not boiled -- so I am concerned that the methylene chloride could show up in blanks. But it should be better than what we are seeing.

I have boiled water today and plan to send you a case of 1 liter, teflon lined bottles full of DI water.

Stevie

Subject: Dimock - Ft. Meade VOC and Anions

All,  
The samples to be analyzed for VOCs and Anions from the Dimock Residential Groundwater Site are being shipped to Ft. Meade today and are scheduled for tomorrow (2/1/12) delivery.  
Thanks,

Suddha Graves
